

**NOTICE OF PUBLIC COMMENT PERIOD  
DRAFT REMOVAL ACTION PLAN FOR SOIL  
IMPACTED BY LEAD BASED PAINT ON THE UNIVERSITY VILLAGES  
Former Fort Ord, Marina, California  
PUBLIC COMMENT PERIOD:  
March 22, 2006 to April 22, 2006**

**WHAT'S BEING PROPOSED?**

Marina Community Partners (MCP) and the Department of Toxic Substances Control (DTSC) invite you to review and comment on the proposed DRAFT Removal Action Work Plan (RAW) for Soil Impacted by Lead-Based Paint on the University Villages parcels of the Former Fort Ord, Marina, California. The public is also invited to review and comment on the California Environmental Quality Act (CEQA) Notice of Exemption (NOE) for the University Village site cleanup prior to its final decision. The NOE explains DTSC's proposed decision that the project will not have a significant negative impact on the environment.

**BACKGROUND**

The portion of the former Fort Ord that is the subject of this RAW is adjacent to Highway 1 and the California State University Monterey Bay campus. Approximately 570 structures occupied this 290 acre site.

Marina Community Partners is proposing to remove 7,900 cubic yards of lead-impacted soil by excavation and off-site transportation to an appropriate hazardous waste facility. The presence of lead in soil is proposed to be addressed before residential (or commercial) development takes place. Asbestos abatement and demolition of the structures is a separate project, which is regulated by the Monterey Bay Unified Air Pollution Control District.

**HOW DO I PARTICIPATE?**

Interested parties have the opportunity to provide their comments on the DRAFT Removal Action Work Plan (RAW) and associated proposed CEQA Notice of Exemption (NOE) during this 30 day public comment period which begins March 22, 2006. Your participation is encouraged.

**Comments must be submitted in writing** to Theresa McGarry, Project Officer, DTSC, 8800 Cal Center Drive, Sacramento, CA 95826.
